

# Summer Research Intensive

**SoundWaters is an environmental organization dedicated to education, the environment and the community. Summer Research Intensive is an innovative summer program available to local high school students.**

**Through a two week session, students will have access to professional research materials and equipment to conduct major ongoing research projects in marine science. Students will also take part in career path presentations and gain resume and interview skills.**

**Participate in one of two sessions:  
July 27-August 7 or  
August 10 -August 21  
at the SoundWaters Harbor site in  
Bocuzzi Park.**

**Interested applicants should email their application  
and resume to:**

**Jessica Castoro, Educator  
[jcastoro@soundwaters.org](mailto:jcastoro@soundwaters.org)**

# Summer Research Intensive Application 2020

*We have a limited number of positions available. We accept the strongest candidates who are dedicated to the program and committed to the time requirement. This program is offered in two week sessions, running from 9am-3pm at Boccuzzi Park in Stamford. Program fee is \$1,000, scholarships are available.*

Please answer the following questions:

1. Why are you interested in being involved in Summer Research Intensive, the summer program for high school students at SoundWaters?

2. What are three important characteristics for a researcher to have? Why are these important?

1.

2.

3.

3. The majority of the day will be spent outside whether it is collecting field data aboard the Schooner *SoundWaters*, SoundWaters Research Vessel or on the shores of the Long Island Sound. Are you comfortable collecting data in the field, aboard a moving vessel, in different weather conditions?

4. Students will be working together to gather data for a series of ongoing research projects. What interests you the most about the Long Island Sound?

**Please email this application and a copy of your resume to [jcastoro@soundwaters.org](mailto:jcastoro@soundwaters.org)**
